

## “INKA” CRANE PONTOON EQUIPPED WITH 40 TONS HAGGLUNDS CRANE

| Vessel name   | INKA   |
|---|--|
| Delivery  | Currently in service   |
| Class   | Turkish  |
| Crane design  | Electrical/Hydraulic   |
| Built   | 2010   |
| Lifting capacity (grap duty)                          | 40 ton   |
| Max / Min working radius                              | 24,0 m. / 2,6 m.   |
| Lifting height  | 27 m.  |
| Working rate  | Approximately 500 tons/ hour / (pending material with full load)     |
| Working speed holsting                                |  |
| (infinitely variable with automatic power regualtion) | 16,0 ton 0-36 m/min.   |
| 40 ton 0-18 m/min.                                    |  |
| Slewing (var with aut. Power reg.)                    | 0,9 rev./ min.   |
| Luffing (var with aut. Power reg.)                    | 42 sec.  |
| Power   | 380 V / 50 Hz.   |
| Year of built   | 2010   |
| Pontoon lenght over all                               | 40,70 m.   |
| Pontoon breath  | 13,75 m.   |
| Pontoon hull depth.                                   | 3,35 m.  |
| Maximum draught                                       | 2,85 m.  |
| Empyt draught   | 1,20 m.  |
| Lightship   |  |
| Gross / Net tonnage                                   | 483 / 145  |
| Diesel generator                                      | Teksan TJ486DW5A, Stand by 486 kVA, Daewco motor, Marelli alternatör |
| Inspectable   | Tuzla, İstanbul, TURKEY  |
| Price guidance  |  |
